ADVANCED COMPOSITES AND REINFORCEMENT

EMINENCE ADVANCED COMPOSITES vs Traditional or Lightweight Manufacturing Application Methods

The durability and strength ratio calculation is based on various factors such as the composite application methods and materials, reinforcement methods and reinforcement materials (if any), as well as the projected design and shape advancements.

There are only three pool manufacturing applications that are currently prevalent on the US market – *Traditional, Lightweight and Advanced*. **Eminence Advanced Composites and Reinforcement Application** methods of the Eminence Line Panther Pools are the most technologically advanced and designed to build the most durable, tensile and longstanding pools. Our composite application method implicates the newest industry approved standards to make sure that pools are built to withstand time and extended pool exploitation.

EACR – Eminence Advanced Composites & Reinforcement

1. Exclusive Finish Layer
2. Vinyl Ester Resin Corrosion Barrier
3. Fiberglass CSM (Chopped Strand Mat) layer
4. Full Carbon Fiber Matting
5. NIDA-CORE Reinforcement
6. Stich Matting
7. Resin & Gel Sprayed Membrane
8. Closed-Beam Construction

MANUFACTURING APPLICATION	Traditional	Lightweight	Advanced
○ Surface Finish Layer	Gelcoat	Gelcoat	Exclusive Finish
○ Vinyl Ester Resin Corrosion Barrier	✓	✓	✓
○ Standard Woven Roving Layer	✓		
○ Fiberglass CSM (Chopped Strand Mat) Layer		✓	✓
○ FCFM (Full Carbon Fiber Matting) Core Layer			✓
○ NIDA-CORE Structural Reinforcement Layer			✓
○ Partial Localized Reinforcement	✓	✓	
○ Stich Matting Layer			✓
○ Resin & Gel Sprayed Membrane	✓	✓	✓
○ Closed-Beam Reinforcement Construction			✓

DESIGN AND SHAPE ADVANCEMENTS

Design and shape are also important factors in rating the strength and durability of composite fiberglass pools.

Washington 35 diagram

STANDARD SIZES

MODEL	LENGTH	WIDTH	SHALLOW	DEEP
Patriot 23	22' 2"	11' 2"	3' 6"	5' 5"
Lincoln 30	29' 2"	13' 2"	3' 6"	5' 9"
Washington 35	34' 2"	14' 2"	3' 7"	5' 9"

This icon of the person is scaled to the size of the pool for better pool size visualization

Enhanced modular configurations are available to include spa and/or tanning shelves

Measurements are to widest point on each side of the inside edge. Dimensions may vary up to 3%

MODULAR POOL CONFIGURATIONS

Based on Washington 34 models

* More custom modular configurations are available

OPTIONAL MODULAR COMPONENTS

The design of this pool can be enhanced with several modules to add more actionable functionality and to extend the usability of the pool.

STANDARD MODULES

MODULE	LENGTH	WIDTH	DEPTH
Tanning Shelf Rectangular	7'	15'	10"
Tanning Shelf Semi Circle	7' 8"	15' 2"	10"
Spa Rectangular	7'	9'	3' 4"
Spa Free Form	7'	9'	3' 4"

Tanning Shelf Rectangular

Tanning Shelf Semicircle

CONSTRUCTION PACKAGE

PRODUCTS AND MATERIAL

- Construction aggregate - 3/25 or 3/8 clean gravel
- Pool delivered to the project site
- Dewatering components for hydro pressure relief system
- All pipes and plumbing for up to 25-30 liner feet from pool to equipment
- (1) 1.5Hp Circulation Pump - Non-Corrosive
- (1) 200+ square feet Cartridge Filter - Non-Corrosive
- (1) In-line Automatic Chlorinator
- (1) Oversized Automatic Surface Skimmer
- (2) Water Return Jets
- (1) Tanker of water required for installation
- (2) Sets of pool blue prints for township permits
- (1) Vacuum hose
- (1) Vacuum head
- (1) Telescopic Pole
- (1) Leaf net
- (1) Brush
- 2" Plumbing
- Pool handling and construction machinery
- Temporary Construction Fencing

ELECTRICAL SERVICE

If electrical service is selected the following is what will be included in the standard package and it is based on 50ft from the main panel to the pool sub-panel and accessible location. Longer distance and/or location with obstacles will require additional estimate.

- Township permits preparation for electrical services
- Pool panel with timer
- Trenches if required

MASONRY SERVICE

If pool patio is selected the following is what will be included in the standard package and it is based on 3ft around pool. More patio or different material will require additional estimate. The following is based on brushed concrete patio package..

- Ground surface preparation
- Concrete shape formation
- Cantilever form installation
- Bond beam preparation
- Rebar foundation setup
- Concrete pour
- Patio surface brush
- Removal of the cantilever forms and cantilever edge cosmetic cleanup
- Removal of construction debris and site cleanup

PROFESSIONAL SERVICES

- Township permits preparation
- Pool and equipment delivery
- Excavation
- Excess dirt removal and trucking
- Complete pool installation and leveling
- Hydro Pressure Relieve system installation
- Gradual backfill
- Pool equipment assembly and plumbing
- Township inspections coordination
- Basic grading around pool
- Site cleanup

MANUFACTURER WARRANTY

- Lifetime Structural Warranty
- Lifetime Finish Coat Warranty against osmotic blistering

POOL EQUIPMENT WARRANTY

- 3 Years from date of purchase

SPN GUARANTEES

- 1 Year Workmanship Warranty
